Benny Joel Lakamana

ASSOCIATE (VISUAL DESIGN) • **TALENT DEVELOPMENT — LEARNING DESIGN SERVICES**

Begumpet, Hyderabad, India | +91 9014133656 | bennyofficial19@gmail.com | Portfolio & Showreel on Request

Fine Arts Graduate (BFA in Animation, JNAFAU) & Visual Designer specializing in **digital visual asset creation, storyboard translation, and GenAI-accelerated design workflows** for enterprise learning. Highly skilled in **Adobe Photoshop, PowerPoint, and Illustrator** for developing infographics, process diagrams, and engaging eLearning visuals. Advanced proficiency in **Adobe After Effects** (multimedia/motion graphics) to transform static instruction into compelling, learner-centric animations. Pioneer in deploying **node-based generative AI (ComfyUI) and prompting frameworks (Google Antigravity, Claude)** to rapidly build reusable learning asset libraries. Brings multidisciplinary leadership from VFX production, ensuring strict brand compliance, visual consistency, and zero-defect execution. Fully committed to the **11:00 AM – 8:00 PM IST** shift schedule at Deloitte Hyderabad.

DESIGN & TECHNICAL TOOLKIT

VISUAL DESIGN & PRESENTATION

Adobe Photoshop | MS PowerPoint | Adobe Illustrator | Visual Storytelling | Layout & Typography | eLearning Asset Prep | Infographics | MS Word / Office

GENERATIVE AI & PROMPTING (LDS CORE)

GenAI Graphics Creation | ComfyUI (Node Diffusion) | Google Antigravity | Claude AI | Prompt Engineering | Asset Library Synthesis

ADVANCED MULTIMEDIA (PREFERRED SKILL)

Adobe After Effects | Motion Graphics | Storyboard Animation | Kinetic Explainer Video | Audio-Visual Sync

3D & SPATIAL VISUALIZATION

Autodesk Maya | Unreal Engine 5 | 3D Model Staging | Lighting & Composition

EDUCATION & CREDENTIALS

Bachelor of Fine Arts (BFA) in Animation
JNAFAU — Hyderabad, India
4-Year Full-Time Degree — Graduated 2026
60%+ Consistent Academic Record • No Backlogs

Advanced Diploma in 3D Animation & VFX
Arena Animation — Hyderabad, India
Multimedia & Design — 2022

LDS COMPETENCIES

- Storyboard-to-Visual Translation
- Learner-Centric Information Design
- GenAI Rapid Asset Prototyping
- After Effects Motion & Explainer Graphics
- Reusable Learning Asset Library Architecture
- Multi-Stakeholder Feedback Integration

Shift & Office Alignment: 100% committed to 11:00 AM – 8:00 PM IST (Flexi-shift ready) at Hyderabad / Bengaluru.

VISUAL PRODUCTION & DESIGN EXPERIENCE

Assistant VFX Supervisor & Visual Designer — 2026 – Present
Technical Artist VFX — Hyderabad, India

- **Visual Storyboarding & Layout Design:** Translated narrative briefs and storyboards into polished 2D/3D visual assets, background plates, and digital compositions aligned with client specifications.
- **Creative Quality Assurance & Mentorship:** Supervised a team of digital artists, conducting daily visual review sessions, providing actionable design feedback, and enforcing brand and quality benchmarks.
- **Reusable Asset Library Development:** Engineered standardized digital asset templates and organized asset libraries, accelerating cross-departmental delivery cycles and maintaining zero-defect deliverables.

VFX Production Coordinator & Visual Media Lead — 2026
MSR Creations • Feature Film: *TAKSHAKA* — Hyderabad, India

- **Storyboard & Plate Coordination:** Managed visual continuity between storyboard concepts, camera tracking data, and final CGI environment integration across live-action plates.
- **Cross-Functional Collaboration:** Coordinated directly with 3D modelers, compositors, and creative supervisors in Autodesk Maya and Photoshop to resolve visual inconsistencies and streamline handoffs.
- **Milestone Delivery & Schedule Tracking:** Monitored digital asset throughput and delivery timelines, ensuring tight theatrical production milestones were met with 100% schedule adherence.

KEY PROJECTS & LEARNING DESIGN APPLICATIONS

GenAI-Powered Visual Asset Library & Presentation Prototyping — GENAI & VISUAL DESIGN

ComfyUI • Google Antigravity • Claude • Photoshop • PowerPoint

- Deployed **ComfyUI node-based diffusion** and agentic prompting workflows to rapidly generate custom illustrations, visual metaphors, and graphic assets for complex conceptual topics.
- Designed high-impact presentation decks and infographic layouts in **MS PowerPoint and Photoshop**, structuring information hierarchically for maximum visual retention and engagement.
- Established prompt templates and asset tagging conventions to build a reusable graphics repository, slashing visual ideation turnaround time by over 60%.

Multimedia Motion Graphics & Storyboard Explainer Sequences — ADVANCED MULTIMEDIA

Adobe After Effects • Photoshop • Illustrator • Storyboard Translation

- Translated multi-scene storyboards into dynamic animated explainers using **Adobe After Effects**, integrating kinetic typography, vector graphics, and smooth timing curves.
- Prepared optimized multi-layered graphic elements in **Photoshop and Illustrator**, ensuring pixel-perfect asset handoffs and scalable digital display compatibility.
- Collaborated iteratively with stakeholders to incorporate design feedback, fine-tuning visual rhythm, color harmony, and instructional clarity.

Real-Time 3D Staging & Interactive Environment Previsualization — 3D VISUALIZATION

Unreal Engine 5 • Autodesk Maya • Lumen • Lighting & Composition

- Constructed 3D spatial environments and interactive scene blockouts in **Unreal Engine 5**, utilizing dynamic lighting to test visual composition and audience viewpoint perspectives.
- Crafted custom 3D models and textural elements in **Maya**, maintaining clean geometry and aesthetic consistency for modern digital visual platforms.
