BENNY JOEL LAKAMANA

ASSOCIATE, DESIGN • MOTION GRAPHICS & AI-DRIVEN VISUAL PRODUCTION

Begumpet, Hyderabad, India | +91 9014133656 | bennyofficial19@gmail.com | Portfolio & Showreel on Request

Associate Designer & Fine Arts Graduate (BFA) specializing in **Adobe After Effects motion graphics, digital visual design, and AI-accelerated creative workflows**. Expert in deploying **ComfyUI node-based diffusion pipelines** and agentic AI systems (**Google Antigravity, Claude**) alongside **Adobe Photoshop** to rapidly generate digital visual assets, design high-impact presentation graphics, and automate production workflows. Experienced in leading multidisciplinary artist teams as an **Assistant VFX Supervisor**, maintaining rigorous visual quality benchmarks and tracking tight delivery schedules. Bridges **3D real-time environments (Unreal Engine 5, Autodesk Maya)** with motion design to produce polished, brand-compliant deliverables. Fully committed to global rotational shift schedules at the Hyderabad office.

TECHNICAL PROFICIENCY

MOTION GRAPHICS & VISUAL DESIGN

Adobe After Effects | Adobe Photoshop | Motion Design | Kinetic Typography | Visual Storytelling | Digital Asset Prep

GENERATIVE AI & AGENTIC PIPELINES

ComfyUI (Node Workflows) | Google Antigravity | Claude AI | Prompt Engineering | Diffusion Pipelines | Workflow Automation

3D MODELING & REAL-TIME ENGINES

Autodesk Maya | Unreal Engine 5 | 3D Props & Environments | Topology & UVs | Sequencer & Lighting

TRACKING & COMPOSITING

SynthEyes | Mocha Pro | The Foundry Nuke | Camera Matchmoving

EDUCATION

Bachelor of Fine Arts (BFA)
JNAFAU (Jawaharlal Nehru Architecture & Fine Arts University)
Hyderabad, India — 2022 – 2026
Major in Animation, Visual Storytelling, Composition, Color Theory, and Digital Media.

Diploma in Animation & VFX Prime
Arena Animation
Hyderabad, India — 2021 – 2025
3D production pipelines, motion graphics fundamentals, visual effects, and digital assets.

CORE COMPETENCIES

- After Effects Motion Graphics & Title Animation
- Node-Based AI Asset Generation (ComfyUI)
- Agentic AI Automation (Antigravity & Claude)
- 3D Real-Time Staging & Assets (Maya & UE5)
- Creative Team Supervision & Quality Assurance
- Executive Pitch & Presentation Prototyping

Shift Availability: Fully flexible for rotational global shifts (5:30 AM – 2:30 PM & 2:00 PM – 11:00 PM IST) at Hyderabad office.

PROFESSIONAL EXPERIENCE

Assistant VFX Supervisor — 2026 – Present
Technical Artist VFX — Hyderabad, India

- **Artist Supervision & Quality Assurance:** Supervised a multidisciplinary team of 3D and visual artists, conducting daily creative reviews, enforcing visual quality benchmarks, and ensuring zero-defect deliverables.
- **Pipeline & Milestone Execution:** Managed day-to-day shot and asset progress using digital tracking tools, eliminating throughput bottlenecks and maintaining a 100% on-time delivery record.
- **Departmental Alignment:** Coordinated directly with leads across modeling, lighting, and compositing to resolve technical roadblocks, maintain asset continuity, and ensure visual narrative consistency.

VFX Production Coordinator — 2026
MSR Creations • Feature Film: *TAKSHAKA* — Hyderabad, India

- **On-Set Technical Coordination:** Directed on-set data capture, green-screen stunt coordination, and camera tracking alignment for high-fidelity CGI environment and live-action plate integration.
- **Maya CG Environment & Asset Integration:** Supervised 3D environment asset integration in Autodesk Maya, matching photorealistic lighting, shaders, and geometry to live-action camera plates.
- **Milestone Delivery & Artist Handoffs:** Liaised with matchmove and compositing artists to diagnose solve anomalies, maintain schedule velocity, and ensure final theatrical delivery.

KEY PROJECTS & CREATIVE WORKFLOWS

AI-Accelerated Motion Graphics & Pitch Deck Prototyping — AI & MOTION DESIGN
After Effects • ComfyUI • Google Antigravity • Claude • Photoshop

- Engineered **AI-accelerated workflows** using **Google Antigravity and Claude** to prototype corporate pitch decks, visual narrative structures, and creative presentation assets with 3× faster turnaround times.
- Integrated **Adobe After Effects** with node-based generative AI workflows in **ComfyUI**, creating dynamic visual assets, kinetic typography, and style-transferred animations with high turnaround speeds.
- Leveraged **Adobe Photoshop** for high-fidelity visual mockups, digital asset preparation, color grading, and brand-compliant presentation layouts.

Unreal Engine 5 Real-Time Environment & Previsualization — REAL-TIME 3D SHOWCASE
Unreal Engine 5 • Nanite • Lumen • Sequencer • Autodesk Maya

- Assembled real-time interactive 3D environments and performed scene testing using **Nanite** geometry, **Lumen** dynamic lighting, and virtual camera choreography in **Sequencer**.
- Modeled and textured custom 3D props and environment assets in **Autodesk Maya**, ensuring clean quad topology and efficient handoffs into real-time rendering engines.
- Designed cinematic camera angles, atmospheric lighting passes, and real-time review sequences for rapid creative iteration and stakeholder visual presentations.

Feature Film CG Integration & Camera Tracking Pipeline — PRODUCTION SHOWCASE
Autodesk Maya • SynthEyes • Mocha Pro • The Foundry Nuke

- Executed 3D camera tracking solves and planar matchmoving in **SynthEyes** and **Mocha Pro**, aligning digital 3D assets with accurate lens distortion to live-action plates.
- Integrated Maya 3D environment geometry with matched focal lengths and coordinate systems, ensuring seamless composite handoffs and on-time milestone delivery.
- Automated camera solve verification and plate distortion pipelines, reducing composite alignment errors and accelerating artist handoff cycles.
